

## Secondary AIMS Track & Field Championships – Saturday 11 February 2023 @ Alice Smith Secondary School

On the 11th of February, a group of secondary students participated in the AIMS track and field secondary competition. This event took place in the Alice Smith School. Our students and coaches worked hard, with many weeks of early morning training sessions.

On the day of the event, there were around 9 schools taking part. We represented our school in many events such as sprints, long jump, javelin, discus etc. Although it was a very competitive environment, we still achieved many awards.

Students from all different age groups got gold, silver and bronze medals in a variety of different events. We are SRI KDU's first athletics team and overall, we did incredibly well!

Report Written by: Leena Abigail Dany, Year 11B

The competition happened in a stunning stadium, whole competition was organized well and everything went as it was expected. Running races were going throughout the whole competition and it was a chance to cheer your teammates and see the race. Students from our school also did well the Y7&8 guys were really good at running. They brought medals which is really nice, Y8,Y9,Y10,Y11 and A-levels also won medals and did really well in their events. Javelin, the throwing a spear was looking interesting and next time I'll choose to do that too.

The competition put me back into my discipline which really improved my physical performance. I didn't think I would enjoy doing it but I did. During the competition I felt very confident as I trusted myself. The students from other schools were impressive as they were really fast and strong but I have talked to some of them and they are actually very friendly. This was a honour to participate this competition as I won in those where I was most confident in and I understood where should I train more. That was a great experience and none of them can beat me in discus!
