OUR CURRICULUM

At Sri KDU, education is not just about academic achievement — it's about preparing students for life. Our British-style curriculum is designed to inspire curiosity, resilience, and independent thinking. From Early Years to Sixth Form, we cultivate the skills and mindset needed to succeed in an ever-changing world. By celebrating diversity and encouraging global-mindedness, our students graduate with not only strong qualifications but also the values and empathy needed to lead and inspire.

Early Years Foundation Stage

The Early Years Foundation Stage (EYFS) at Sri KDU focuses on nurturing young learners aged 3 to 5 years through a holistic and play-based approach that encourages development in five key areas: Personal, Social, and Emotional Development; Communication and Language; Physical Development; Literacy; and Mathematics.

Our bespoke curriculum builds on the UK National Curriculum, carefully tailored to mirror our diverse, international setting. This approach ensures our learners develop the skills, knowledge, and attitudes needed to thrive in an interconnected world. We aim to nurture globally minded individuals who respect diversity and are prepared to make a positive difference. We believe every child deserves an education that not only develops their skills and knowledge but also nurtures their values, curiosity, and sense of wonder about the world.

Secondary (Key Stage 3 & 4)

Our Secondary curriculum, rooted in the internationally acclaimed Cambridge framework, emphasises deep understanding and transferable skills across a spectrum of disciplines. This stage of secondary education is designed to build a solid foundation for future academic pursuits. At this level, students are coached to develop skills and knowledge across a range of subjects to prepare them to take on the challenges of IGCSE courses.

“After visiting the school, my husband and I felt that the entire school, whether in terms of the infrastructure or the quality of teaching staff, offered a very good environment with excellent resources for both our children to have a better learning experience. After both my children came to Sri KDU, they have been very happy, especially my daughter. I feel that her transformation was very significant as she was relatively quiet and seemed hesitant to express herself before. But after coming to this school, I gradually noticed a change in her. I saw her become more outgoing and she also became more confident.”
