Here is the report written by Ryan in 6A.

The event was in KLAAS where our school played a tournament. We played 3 group stage games where we lost 1 and won 2 which qualified us to the 1st division semi final, where we lost and went through to the 3rd and 4th place final. Our opponents were all fairly difficult and our team was proud and disappointed when we drew 2-2 to a academy team that went through because of a rule that quote 'whichever team scores first goes through'. As a team we played very well, we also communicated very well in the game. My favourite thing on fixture day was when I got to lift the trophy for 3rd place. Personally, I think I played very well as a defender, I always kept our team going and as a team we never gave up.

It was nice weather to play in also. No rain, but it was still a little bit sunny. And in total we made 13 goals!

Thanks to everybody we had a chance to get 3rd. Next time if there is another chance I wish we could go out again and come back with GOLD!
